

## iCHPP Homework Preparing for Day 2

Please pick a health topic and population of interest to you. For example, diabetes among older adults; you will use this combination throughout the homework.

Funding has become available for your organization to conduct an evidence-based program within your community for the topic/population you chose. As you build your program, answer the following questions using [www.planetmassconnect.org](http://www.planetmassconnect.org) (Steps 1 – 3 on the portal) as your guide. **Please be prepared to discuss your findings at the start of Day 2 of the iCHPP training.**

### *Step 1: Review Data*

Find data specific to your community to confirm the need for your program or demonstrate that need to funders.

1. What data might you present about this topic?  
What data about risk factors would help you make your argument?

---

---

---

---

---

Notes / Questions:

---

## Step 2: Find Partners

You realize you do not have all the resources you will need to carry the program out and you would like to partner with one or more organizations in your community.

1. Think of two organizations you could potentially partner with.

Partner 1: \_\_\_\_\_

Partner 2: \_\_\_\_\_

2. What added benefit(s) do each of these partners have?

Partner 1:

\_\_\_\_\_

\_\_\_\_\_

Partner 2:

\_\_\_\_\_

\_\_\_\_\_

3. Can you think of an organization or group that you could partner with that would be classified as “beyond the usual suspects”?

\_\_\_\_\_

\_\_\_\_\_

## Step 3: Explore Approaches

Review the approaches in the Community Guide for your topic.

1. What approach is of the most interest to you?

\_\_\_\_\_

\_\_\_\_\_

2. Why did you select this particular approach?
